Introducing Night Master Low Light Navigation Redefined

Night Master US, a division of The Yacht Group, sets the standard in low-light navigation with rugged IP67 PTZ cameras and advanced thermal imaging. Featuring cores up to 640 x 512, radar tracking, digital stabilization, and high-resolution zoom options down to .0008 LUX, Night Master delivers unmatched clarity and reliability at sea.

01

Night Master Features

- Built-In Electronic Image Stabilization
- Intelligent Hot Spot Tracking
- Emperature Measurement & On-Screen Scale
- Multiple Thermal Color Palettes

NIGHT MASTER CAM BRIGHT

- **Extreme lowlight sensitivity of 0.0013Lux (Color) 0.0008Lux (Mono)**

Combining a dual-range searchlight with a powerful 30x optical zoom, 2.13MP low-light camera that captures color at just .0018 lumens and black & white at .0008 lumens—offering unmatched visibility for boats up to 60 ft, all in one affordable device.

NIGHT MASTER CAM

- **Extreme Lowlight & Thermal Cameras with Tracking!**

Features a 30x optical zoom, 2.13MP low-light camera (color at .0018 lumens, B&W at .0008), plus a 384×288 thermal grayscale camera with superior detection and scene modes like man overboard, day, night, and standby—all at an unbeatable price.

05 Thermal Imaging/ Heat Sensing Redefined

NIGHT MASTER CAM +

- **Extreme lowlight sensitivity of 0.0013Lux (Color) 0.0008Lux (Mono)**

Lens Defrosting / Heating

Our top-tier camera offers all Night Master Cam features with upgraded 640×480 thermal resolution, selectable color palettes, and scene modes for enhanced clarity and detection. It also includes a 30x optical zoom, 2.13MP low-light camera with B&W at .0008 and color at .0018 lumens.

NIGHT MASTER CAM LITE

- **High line resolution of 2.14 megapixel provides extreme definition and 1080P resolution.**

Compact Design

Suitable for small vessels.

08 Exceeds FAA Requirements

NIGHT MASTER CAM LITE +

- **High line resolution of 2.14 megapixel provides extreme definition and 1080P resolution.**

Also features a 640×480 thermal camera with grayscale and color palette options, scene modes for enhanced clarity, and a fixed-lens daylight camera with 2x/4x digital zoom. Its high-res thermal imaging and easy joystick control make it a compact powerhouse for users prioritizing thermal performance.

NIGHT MASTER BEAM-LED

SRS 500 | SRS 1000 | SRS 2000

High-performance searchlights from 500 to 1,500,000 candlepower deliver reliable illumination in harsh marine environments. Marine-grade aluminum construction with a durable, corrosion-resistant finish ensures lasting performance.

NIGHT MASTER KEYBOARD CONTROLLER

- IP66 Waterproof
- Control basic featured of Night Masters series thermal cameras
- 3 axis joystick, OLED display
- Two color backlights
- Support customized keys
- Control through both RS485 and Ethernet
- Silicone rubber weatherproof cover
