YACHT CONTROLLER®

ENHANCE YOUR DOCKING EXPERIENCE

Yacht Controller® is the only commercially certified wireless control system that enables yacht operators to maneuver their vessel away from the helm with confidence and precision using a handheld remote.

01

OPTIMO™

The Next Generation in Wireless Control for Center Console Boats, Trawlers, and Cruisers up to 50ft.

MAXIMO™

Powered by a 64 bit Quad Core processor for added redundancy expanding the system for newly launched features and many more to come.

SUPREMO™

The latest in wireless control for super and mega yachts with open air range of over 600ft.

Automatically maintains a vessel's positioning and heading
using GPS, sensors, engines and thrusters

BeamLED.ai

SRS-500 | SRS-1000 | SRS-2000

The Brightest and Most Innovative LED Searchlights Available

Designed by The Yacht Group in Miami, Florida

Designed for safety, rescue, and social use, the system enhances low-light and nighttime navigation with floodlights, spotlights, and an automatic sweep function. Integrated strobe and SOS features provide rapid distress identification in emergency situations, while its social capabilities make it easier to find and connect with friends at marinas, rendezvous points, and anchorages.
